Jim Morton  
District XI Human Resource Council  
Executive Director  
1801 South Higgins  
Missoula, MT 59801

Dear Mr. Morton;

I would like to take this opportunity to express my support of your continued operation of the Workforce Investment Act-Youth Employment Program in Ravalli County. It is widely recognized that the Human Resource Council has been a presence in providing educational and job training programs for our youth in Hamilton and surrounding communities since 1967.

The HRC has been exemplary in seeking meaningful work experiences for its participants, as well as in maintaining a strong emphasis on school retention and early career exploration for youth. While serving youth in Ravalli County we have found you and your entire organization to always be willing to coordinate services in a customer-oriented way to benefit our local participants. You have exceeded performance standards throughout the years and we expect no change from your successful record.

We look forward to working with HRC in the future. They compliment our county and work diligently toward obtaining success for each of their participants.

Sincerely,

Howard Lyons  
Ravalli County Commissioner
